REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention pertains an IC, a computer product having an IC design and a method thereof for repairing a defect in an IC including a plurality of memory arrays. The prior arts of record do not teach an IC having a combination features of testing each of a plurality of memory arrays to detect whether a storage location associated with an applied address is passing or failing; responsive to detection a failing storage location in any of the plurality of memory arrays, applying a common address remapping to all of the plurality of memory arrays to remap, in each memory array, the address associated with the failing storage location. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-21 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
